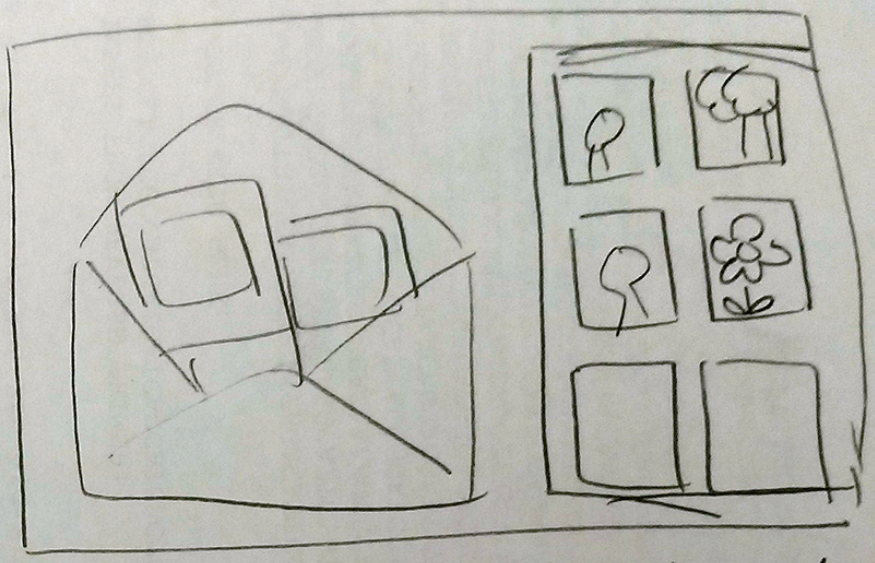
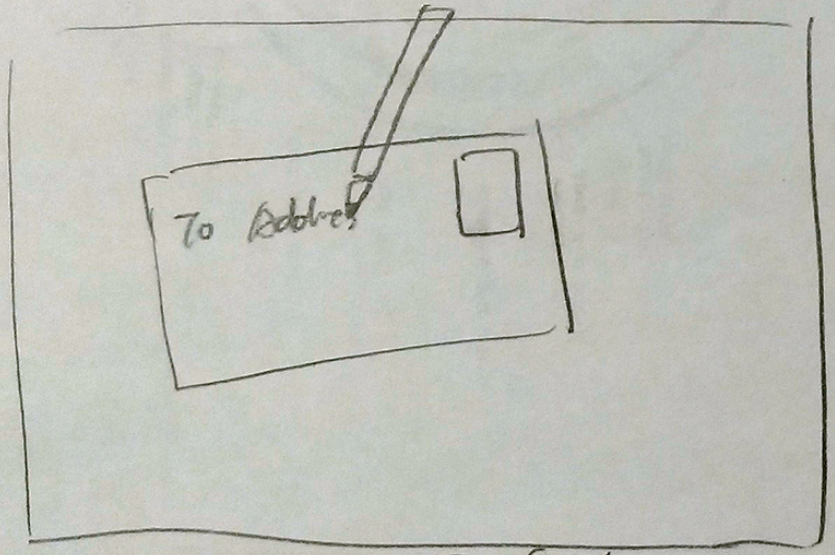
Use a stylus to write on iPad instead of typing on keyboard

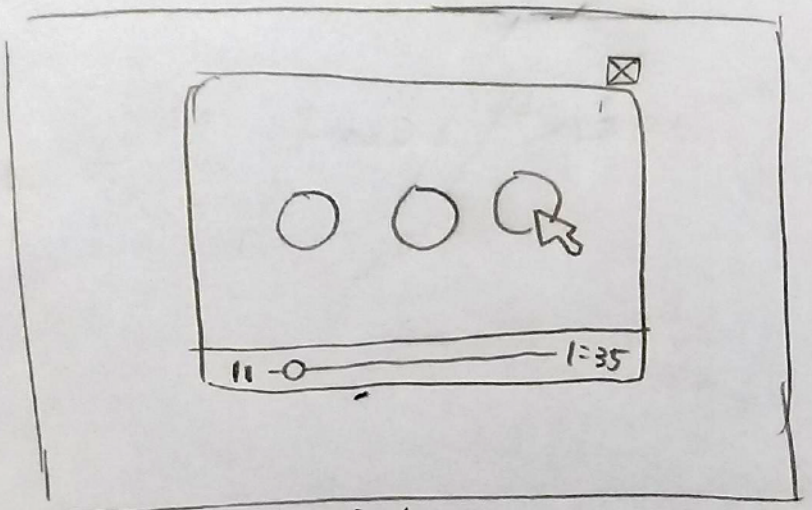


Use a more graphic-based UI to let the user be able to inherit their experience to new technology.

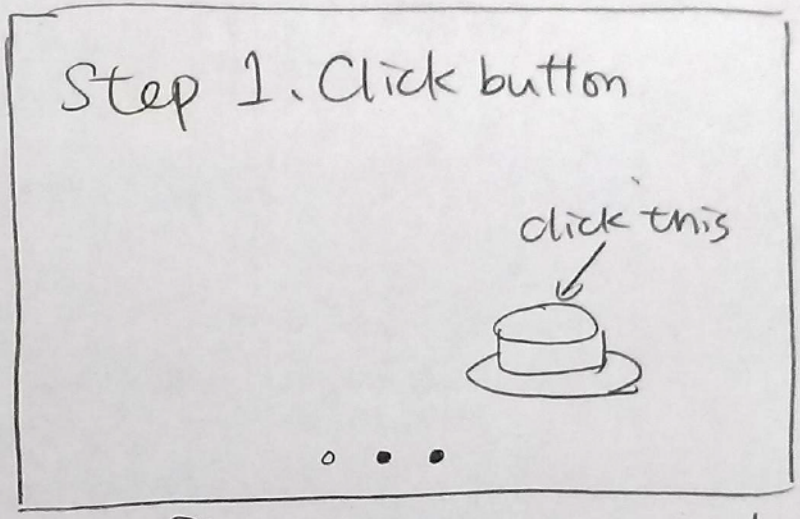


Use instinct UI to let users inherit their experience to new technology

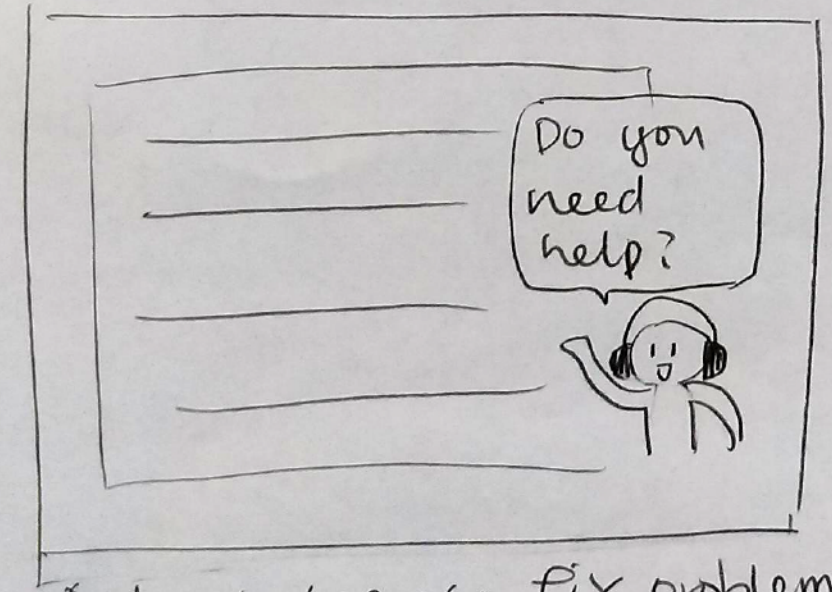
Attitude Towards Tech



video tutorials

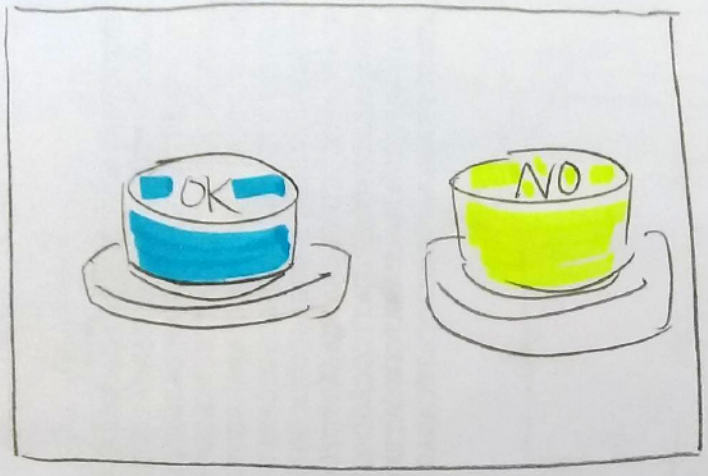


Step-by-step tutorials

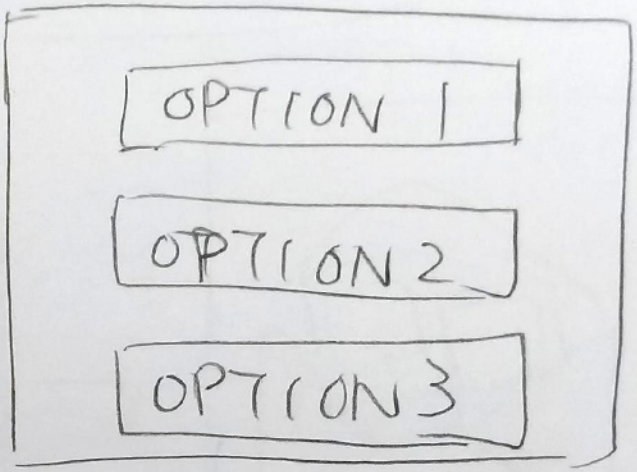


Auto-helper to fix problems.

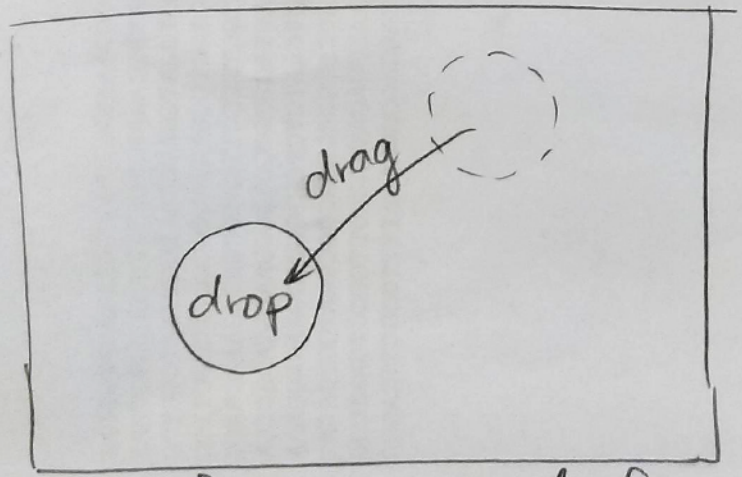
Physical Difficulties



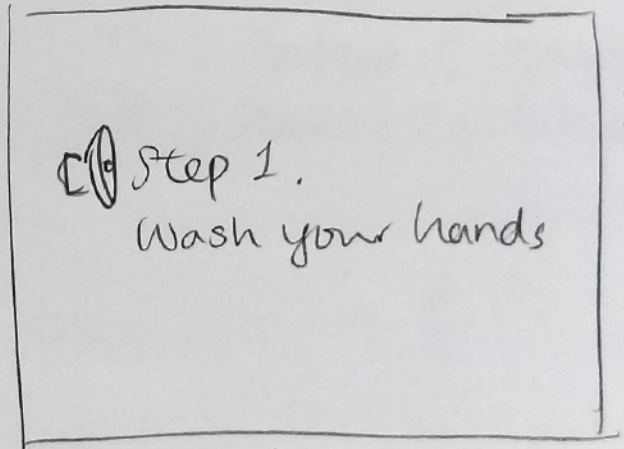
Bigger & bold-colored buttons for bad eyesight



Menus instead of drop-down menus for low dexterity.

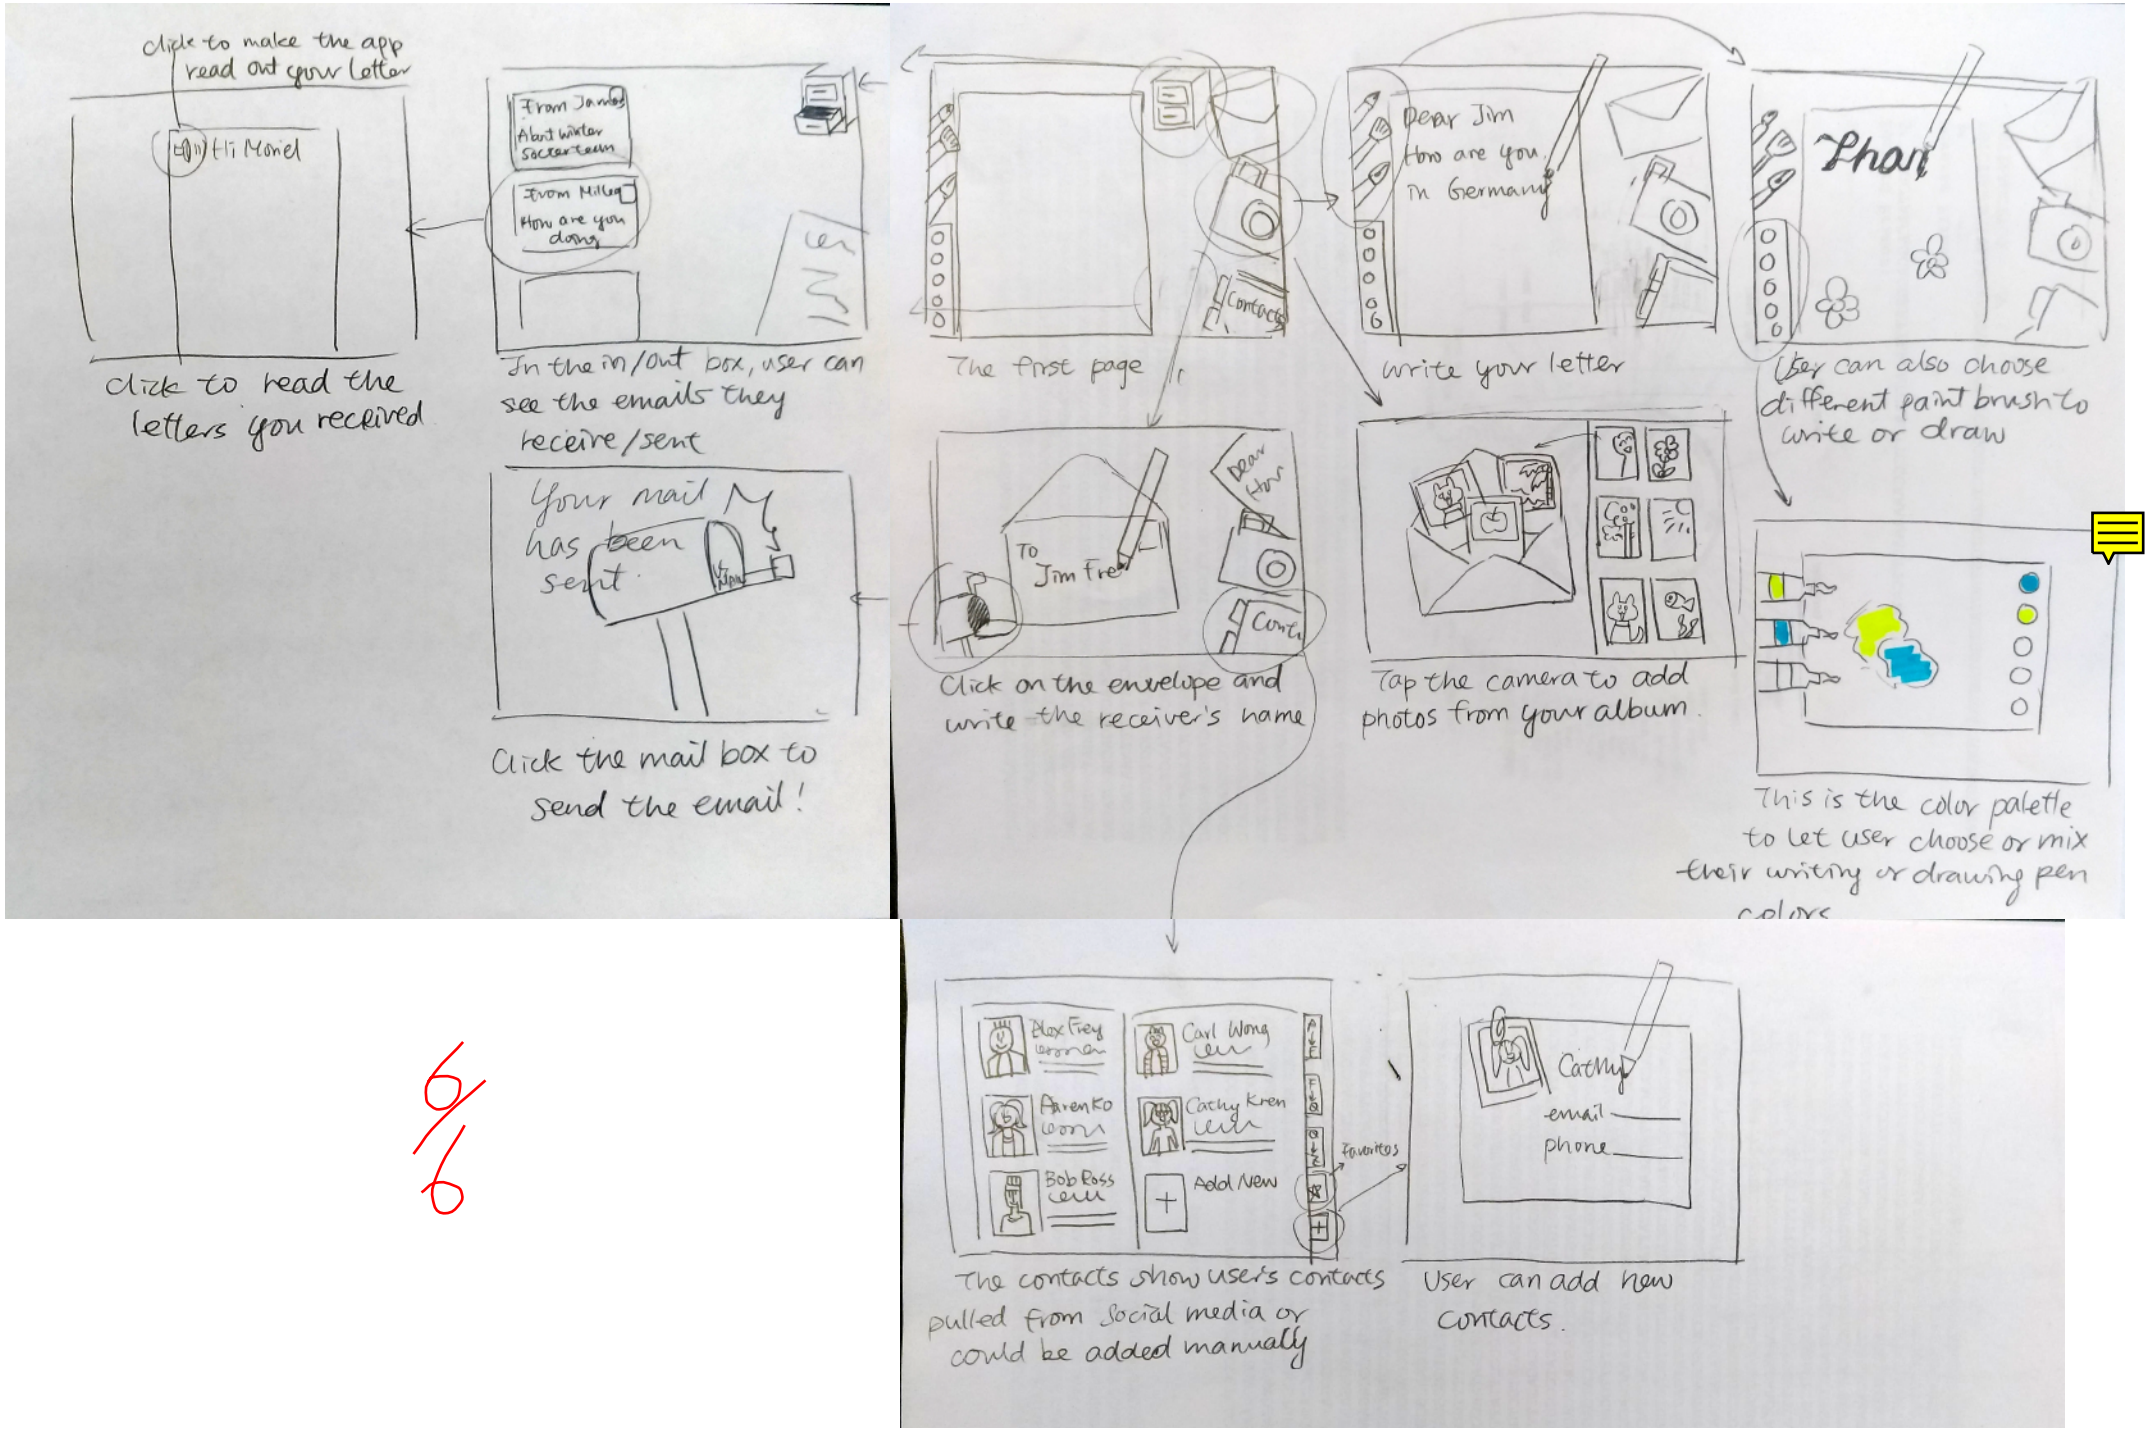


Drag & drop instead of complex movements.



Step one
wash your
hands

Read out texts for users



Click to make the app read out your letter
Hi Moriel
Click to read the letters you received
From James
