Required Homework Format
CBEE 213
Milo Koretsky

If you homework does not adhere to this format - it will not be graded

1. Use engineering paper or plain white paper
2. Attach the problem assignment in front
3. Write legibly and neatly
4. The top of the first page must have:
   • **Last Name, First Name**
   • Course – HW#: CBEE 213 – HW1
   • Studio section and GTA
   • Date: 4/5/2016
   • Page #/Total number of pages
5. Turn in problems in the order that they are assigned
6. Start a new problem set on a new piece of paper. Write only on one side of the paper
7. Important problem solving methods/steps should be written in **sequential order** (vertically). **Show all your work.**
8. Box final answers (include units when necessary and **appropriate significant figures**)
9. Figures must be big enough to read and have proper labels. Tables should have borders.
10. Do not place all attachments together at the end but **arrange them in the order of the problems assigned.**

Example

<table>
<thead>
<tr>
<th>/</th>
<th>Doc, Mary</th>
<th>CBEE 213 – HW1 Sec. xx, TA</th>
<th>4/5/2016</th>
<th>1/6</th>
</tr>
</thead>
</table>
| Problem 1.22 | (a) ____________________________________________ 
               | ____________________________________________ 
               | ____________________________________________ 
               | ____________________________________________ 
               | ____________________________________________ 
               | **Final answer** |
|       | (b) ____________________________________________ 
               | ____________________________________________ 
               | ____________________________________________ 
               | ____________________________________________ 
               | ____________________________________________ 
               | **Final answer** |
