

# CS 160

## CS Orientation

More Lists in Python...

# Odds and Ends

- Assignment #9 posted, but don't freak out!!!
- Lab #8 this week will work toward finishing it.

# How do we change the travel program to use a 2-d array?

# Our travel program...

# Command-line Args

- Import `sys` module
- Access argument values
  - `sys.argv`

# Demo...

# File I/O

- Open file (read, write, append)
- Attach to object
  - `f=open("filename", "r")`
- Read/Write to the file
  - `f.read()` vs. `f.readline()`
  - `f.write()`
- Close file
  - `f.close()`

# Demo...
