Textbook: Ethics for the Information Age 4th edition, by Michael J. Quinn
• You are responsible for any material presented in class, even if not covered by the textbook.
• You are responsible for all assigned reading from the book, even if it is not discussed in class
Measurable Student Learning Outcomes

At the completion of the course, students will be able to...

• Analyze relationships among science, technology, and society using critical perspectives or examples from historical, political, or economic disciplines.
• Analyze the role of science and technology in shaping diverse fields of study over time.
• Analyze a moral problem related to information technology from the point of view of a consequentialist ethical theory.
• Analyze a moral problem related to information technology from the point of view of a nonconsequentialist ethical theory.
• Explain the roles and responsibilities of a computer professional.
• Articulate in writing a critical perspective on issues involving science, technology, and society using evidence as support.

CS391 – Important Logistics

Some rules:

Attendance mandatory for 1st week
• You will be deregistered if you are not here, or can give me an acceptable excuse – strictly enforced
• You can register again if there are free spots, but you may have to pay late registration fee
• After 1st week, attendance linked to participation

Be on time
• 50 min sessions very short, I will start on time, if you are late you won’t get a quiz etc.
• I’ll try to make it worth your while to be here on time

Participate
• This class requires you to engage others in discussion and keep up with current events

No laptops, cell phones, newspapers, etc.
• Laptop use generally a distraction, for you and for others
• If you have a good reason for needing a laptop, come see me
• If you don’t want to be here, no one is forcing you, be respectful
• I will post slides a day ahead of time so you can print and bring along
Students with Disabilities

Accommodations are collaborative efforts between students, faculty and Disability Access Services (DAS). Students with accommodations approved through DAS are responsible for contacting the faculty member in charge of the course prior to or during the first week of the term to discuss accommodations. Students who believe they are eligible for accommodations but who have not yet obtained approval through DAS should contact DAS immediately at 737-4098.

Student Conduct

- Link to Statement of Expectations for Student Conduct, i.e., cheating policies
  - [http://oregonstate.edu/admin/stucon/achon.htm](http://oregonstate.edu/admin/stucon/achon.htm)

- These rules will be **strictly enforced**

- Pay special attention to plagiarism section:
  
  **PLAGIARISM** - representing the words or ideas of another person or presenting someone else's words, ideas, artistry or data as one's own, or using one's own previously submitted work. Plagiarism includes but is not limited to copying another person's work (including unpublished material) without appropriate referencing, presenting someone else's opinions and theories as one's own, or working jointly on a project and then submitting it as one's own.
Why do we have this course?

And why do we make all of you (in EECS) take it?
