   Using the course guidelines adapted from Dr. Shaw, rank your top 3 and discuss why you picked these.

2. Since all assignments are graded by demoing your program for 10 minutes with a TA within 2 weeks of the due date, it is important you understand where you can schedule a demo time after you turn in your program! How do you go about scheduling this appointment?

3. How many assignments can you submit late? How many days late are acceptable?

4. What happens if you miss a demo with a TA without contacting the TA or instructor?

5. What happens if you demo an assignment past two weeks from the due date, even if the assignment was submitted late?

6. When do you take the final proficiency demo? What happens if you do not pass the proficiency demo?

7. If a student has a nearly-complete assignment that does not compile, what percentage should they expect on that assignment?

**Recitation Syllabus Questions:**

8. When are your assignment designs due for recitation? Where do you submit the design?

9. What happens when you submit your assignment design late?

10. How many total points is your design worth? How many total points is your critique worth?
